(54) Title: COMPOSITION FOR STIMULATING BONE-FORMATION AND BONE CONSOLIDATION

(57) Abstract: The present invention relates to a composition for stimulating bone-formation and bone-consolidation, more particularly, to a composition for stimulating bone-formation and bone-consolidation by adding a material for stimulating bone-forming and bone-consolidation to the mixture of tripolyphosphate and water-soluble chitosan. The composition of the present invention can stimulate bone-formation and bone-consolidation in early stages.
